

We offer Same-Day Urgent Care

With multiple providers in three locations, we can take care of your urgent needs within the practice. This means you will be seen by a provider who has your chart with access to your personal health information, history, and medications so they can make a more informed diagnosis. An urgent visit with an IMP provider keeps your care within your Medical Home and saves you from the increased copayment and coinsurance costs associated with Urgent Care Facilities and Emergency Rooms.

After Hours Calls

When the office is closed, the phones are still being answered. You will hear the message that our office is closed, but hang on and your call will be transferred to our answering service. We use Summa Hospital's Answering Service staffed by nurses who can triage your issue and contact our on-call provider.

Remember, for a true medical emergency call 9-1-1.

Patient Portal

For your convenience, we have a HIPAA secure patient portal that allows you to contact our offices for non-urgent questions and appointment requests, view your test results, and message your provider.
